PowerWorx Front Access Fuse Panel Replacement

Fuse Panel Replacement
(Equiv. to ADC # TFA-FAM)

Used for:

Identification and rework defective alarm circuit board
 in the PowerWorx Fuse Panel (PWX-002FGCSD10PWDP)

Issue:

Defective Alarm Circuit Board in the PowerWorx Fuse Panel incorrectly sets remote power alarm. Alarm contact closure has a dead short across normally open and common contacts indicating power distribution or power bus trouble. This problem only affects the ability to monitor local or remote alarms in the ADC PowerWorx distribution panel.
