Frame Gnd
Input
(Pin Jack)

Application:

The ST-T5K-LPU8 provides a quick method to "streak", verify wiring via LED's, from the backplane of the Adtran 3192 Octal Line Power Unit (LPU8) shelf to the MDF. At the MDF simply ground the corresponding pins and the ST-T5K-LPU8 will light the LED associated with that connection.

Ordering Information:

ST-T5K-LPU8	**Adtran TA5000 8 Port LPU8 Streaker Card** **w/ 16 LED's** *(includes standard GND cord, PN # 400409)*	**Call for Pricing**
