

Test Jack Panel

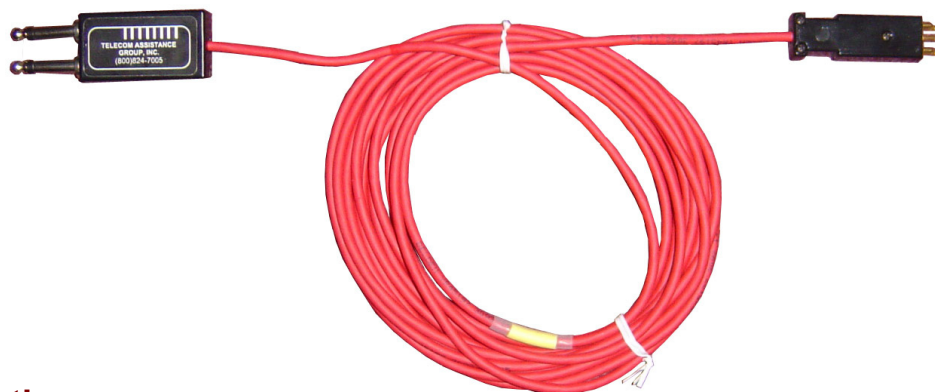

TJ-327-02

TJ-327-02
Test Jack Panel w/2 327C Jacks

F44-CJ-20
Dual plug (327) to 463A, (20')

Application:

The TJ-327-02 provides temporary dial tone for automatic loop test system (Fortel) access. A Remote Tester will call the Central Office and have a Frame Tech put a frame cord from the TJ-327-02 to a cable appearance. The Remote Tester can then perform a Fortel Test on that cable pair. Two independent circuits are provided. Conveniently mount (approx. 20') along the vertical side of the MDF.
